

**SET UP GUIDE**

# 1. CHECK THE BLUE TAB

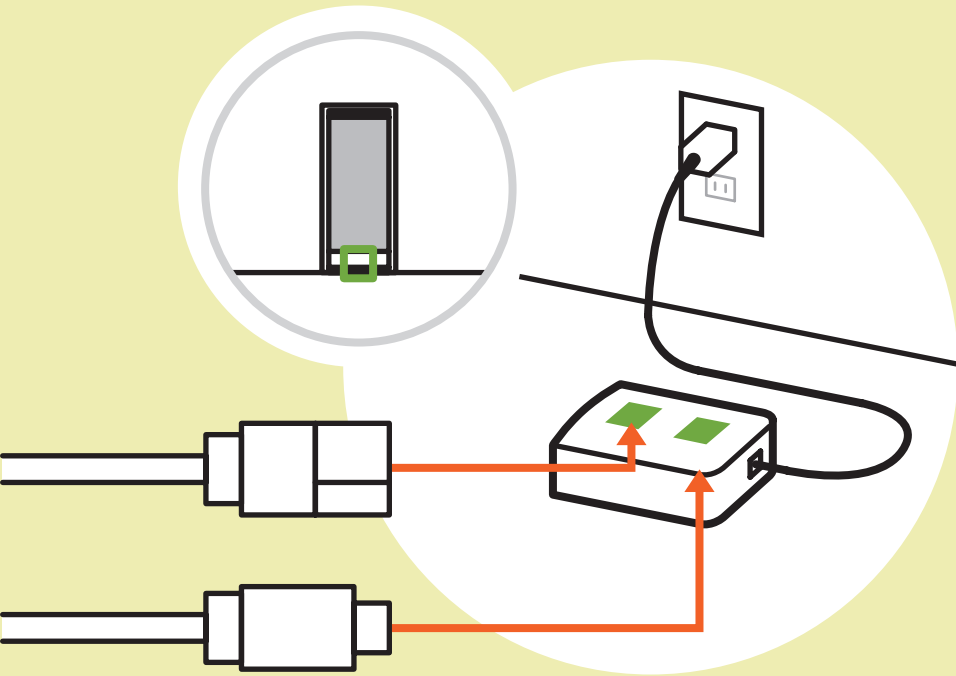

Keep the blue tab in place so the door stays unlocked while you set up.

## 2. PLUG IN POWER CABLE

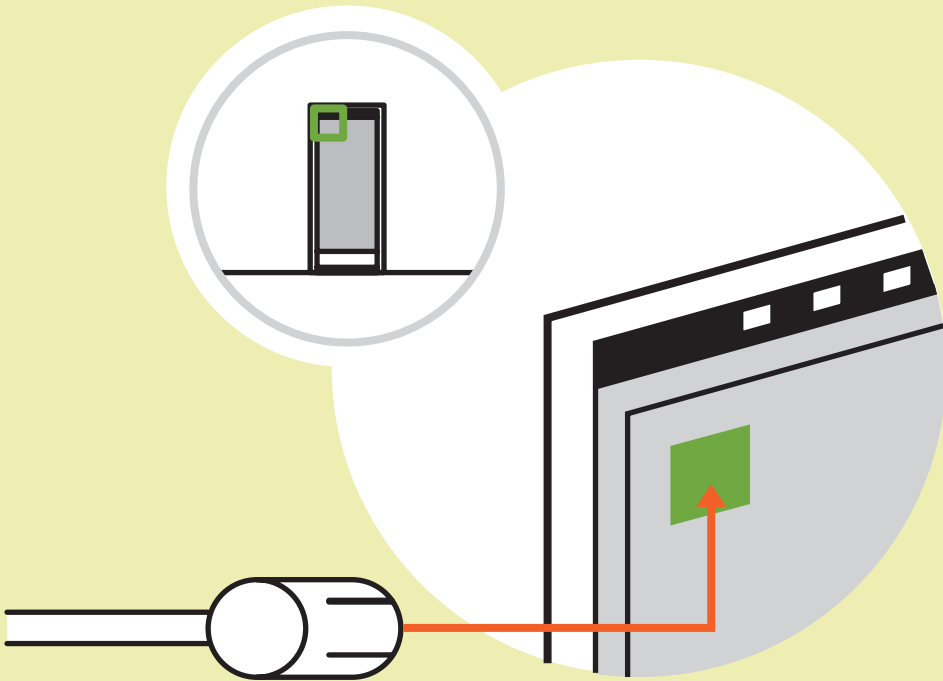

Plug white power cable.

### 3. PLUG IN THE SURGE PROTECTOR

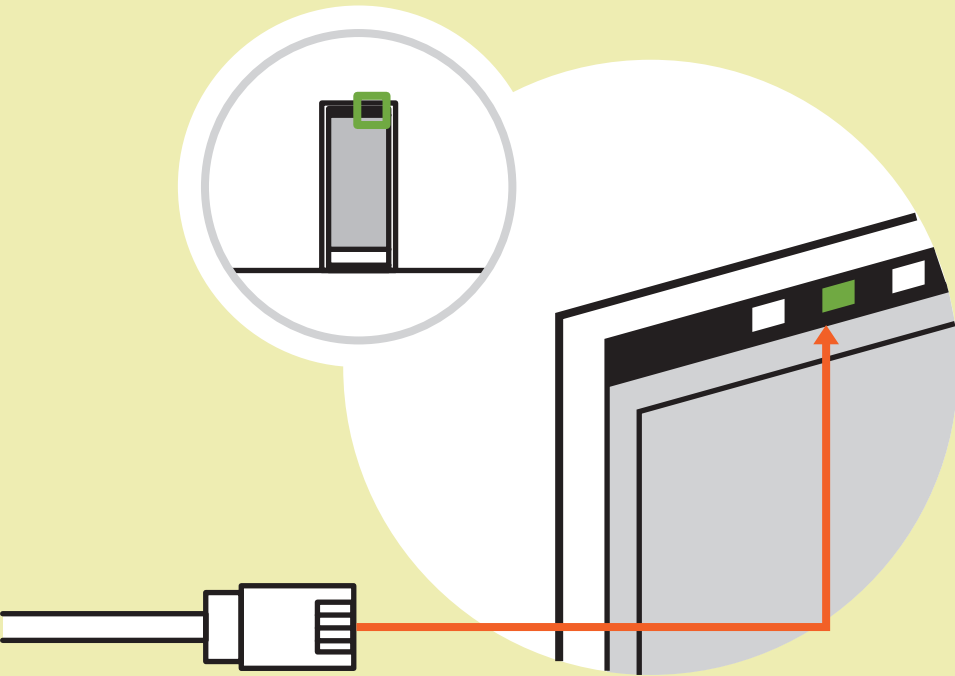

Plug black and white power cables into surge protector and plug the surge protector into the wall.

## 4(a) IF USING A CELLULAR ANTENNA

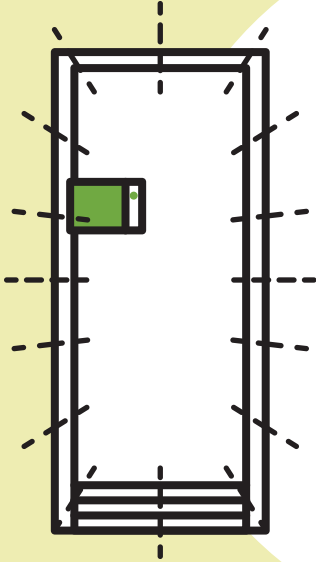

Secure your magnetized antenna to the outside of the fridge back.

## 4(B) IF USING AN ETHERNET CONNECTION

Connect the ethernet cable into the back of the fridge.

## 5. ALMOST THERE!

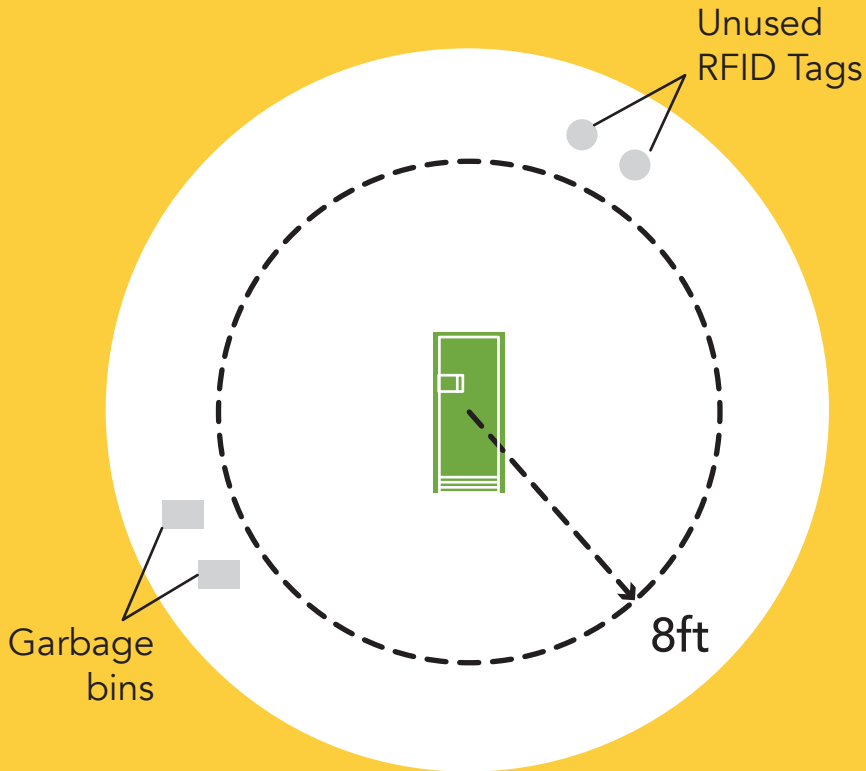

- Is the credit card reader light on?
- Are the lights on inside the fridge?
- Is the tablet screen on?

Reminder: Keep the blue tab in place so the door remains unlocked.

**READY?**  
**LET'S GET**  
**TESTING**

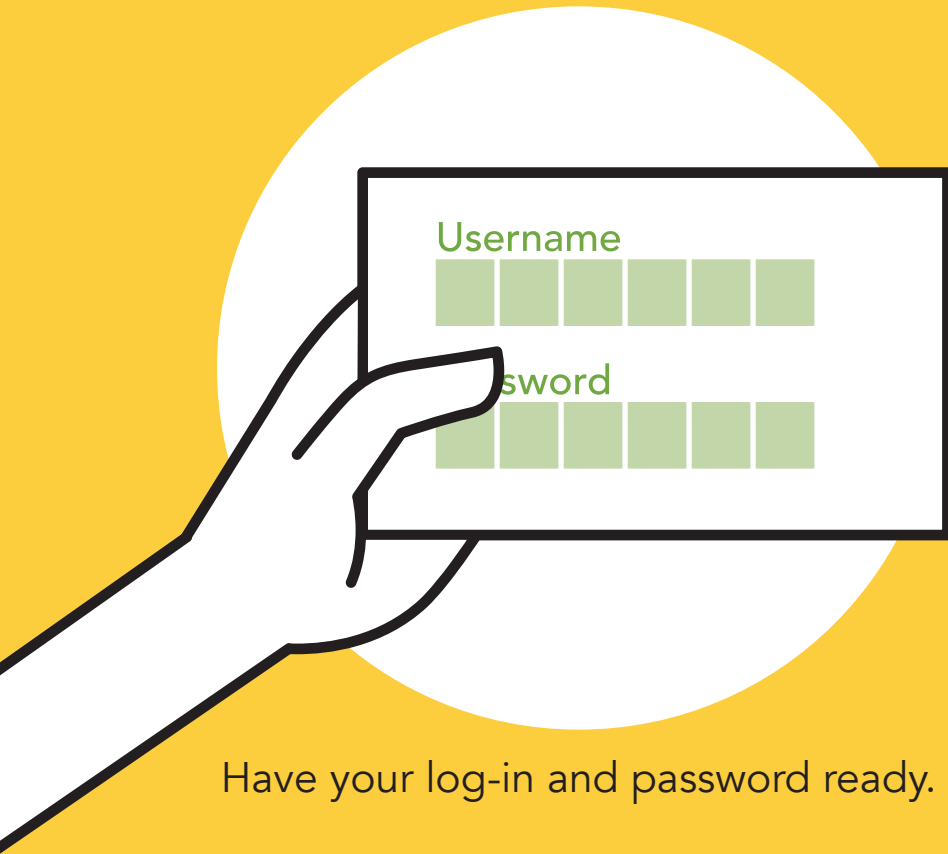

## 6. CLEAR THE AREA

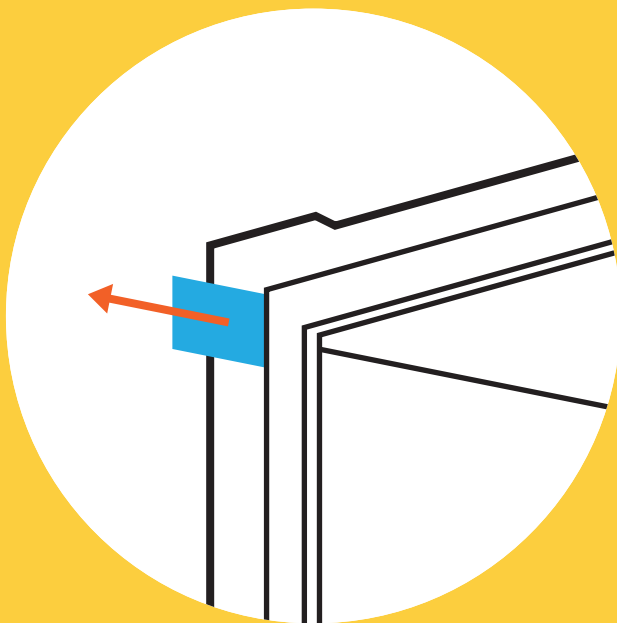

Remove unused RFID tags and move garbage bins at least 8' away during testing.

## 7. KEEP LOG-IN DATA HANDY

Have your log-in and password ready.

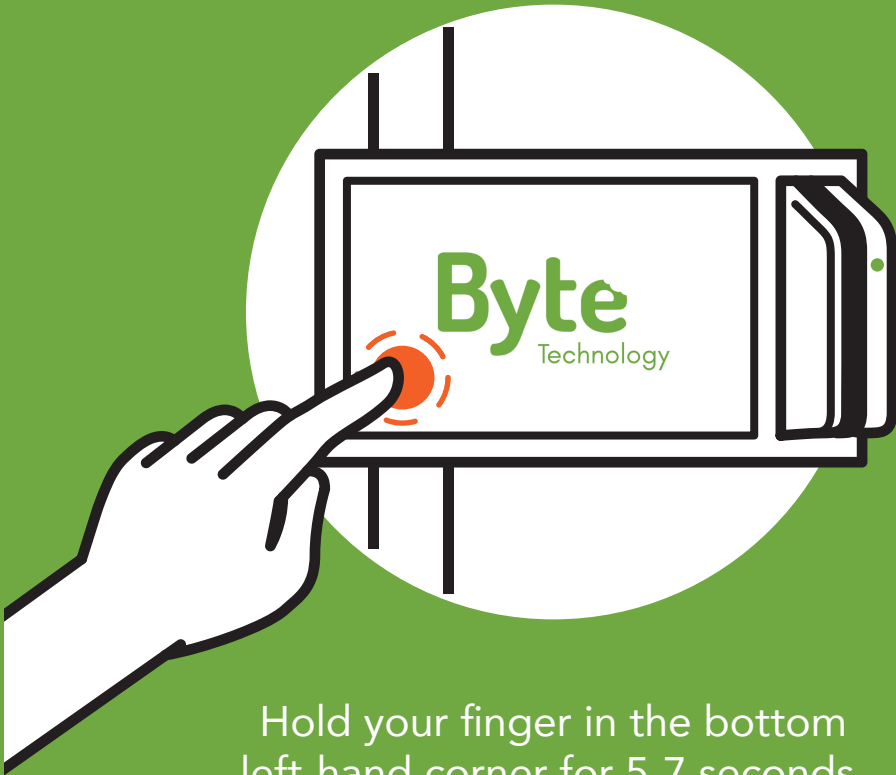

## 8. YOU'RE READY! REMOVE THE BLUE TAB

Remove the blue door tab to lock the fridge.

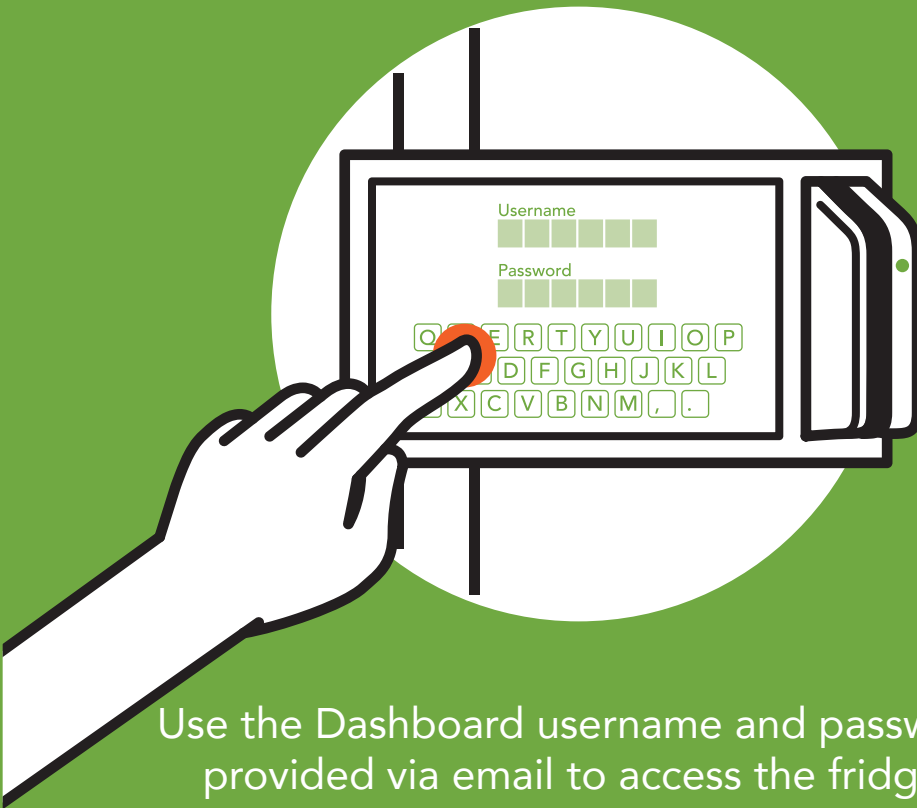

**LOG-IN  
TO THE  
STORE**

## 9. LOG-IN

Hold your finger in the bottom left-hand corner for 5-7 seconds.

## 10. INPUT YOUR CREDENTIALS

Use the Dashboard username and password provided via email to access the fridge.

## 11. PRESS TO UNLOCK

Press "Unlock" and open the door!

# CONGRATULATIONS!

YOU'RE IN **GOOD HANDS**
